Communication skills

All of my previous (freelance) clients have been small businesses and individuals located in the United States and UK and all communication was done via email and Skype. Client training on how to use various WordPress functionality was often required.

Work Experience

VileWorks.com (*personal freelance website*) / WordPress Developer & Web/UI Designer

2007 - PRESENT, BUCHAREST

Client work:

- WordPress development
- WordPress redesign
- WordPress maintenance
- PHP development
- front-end development
- communicating with clients
- collaborating with designers
- UI/UX design
- organizing website content
- onsite SEO

To promote myself and get exposure as a freelancer I had to create and promote various forms of free and/or open source content such as:

- WordPress related [blog articles](#) (2012-2013)
- a free [WordPress plugin](#) (2012)
- [A PHP script for signing contracts online](#) (2015)
